

AP Calc AB Update Tuesday March 24<sup>th</sup>

President Trump announced today that he wants all businesses open by April 12<sup>th</sup>. Malaria drugs are showing some effectiveness against the virus. So, I am going to share in this optimism and say that we will all be back in the classroom by May 1<sup>st</sup>. With that goal in mind, here is a revised schedule.

You should be reviewing the classwork notes and problem solutions for the IVP, Motion, and Function Analysis FRQ's. I am going to set a tentative due date for the homework assignments on these three topics and the homework for the Area and Volume FRQ's. I'm not sure how I would have you submit these yet, but you should set the goal of having these 4 assignments done by Friday April 10<sup>th</sup>. I previously said that I would have Area and Volume notes today with classwork answers posted. I am going to delay that until Thursday in hopes of everyone getting caught up on the first three topics before Thursday. If you get bored, go the AP classroom and continue practicing. The Area and Volume practice will be valuable to anyone looking to retake the chapter 6 test or anyone who has not taken it yet. The 1997 and 1998 multiple choice sets are just for practice. The answers are available so you will not be submitting these. There is not going to be any multiple choice on your AP exam, but I will still include multiple choice questions on the final exam.

After April 10<sup>th</sup>, the goal for the remainder of April would be to complete the following:

FTC FRQ Homework, 2003 Multiple Choice, Spring Break Practice Exam

Starting May 1<sup>st</sup>, here is what I would see as a tentative schedule:

Students who had not taken the Chapter 6 would need to do so by Friday 5/8. Admin is working on possibly having students come in to make-up missed tests in April.

5/1: Go over the Spring Break Exam

5/5: Go over all FRQ topic by reviewing any homework questions. All HW answer will have been previously posted after HW has been submitted.

5/7: FRQ Practice Test

5/9 (Saturday) Chapter 6 test retake. Deadline for retake 5/15.

5/11: Mixed Topic FRQ

5/13: FRQ Test – one problem from each topic (not including the mixed ones)

5/15: Go over assigned practice final

5/19: Recent AP Test MC Practice

5/21: Recent AP Test FRQ Practice

5/23 (Saturday) FRQ Test retake. Deadline for retake 5/29.

5/26, 5/28: Either a two day full AP exam final or condensed into one day if necessary.

On April 3<sup>rd</sup>, AP is going to release more information about the AP Exam and I may adjust topics accordingly.

Stay positive and email me if you have any questions.

Mr. Tupaj
